Dear colleague,

On behalf of the Belgian Association for the Study of the Liver (BASL) steering committee, we would like to invite you to the 25th Wintermeeting on the 4th of december 2020 and the Liver Course organized by the young BASL on the 5th december 2020.

The program of this year promises to be exciting. We are proud to welcome different national and international speakers on diverse topics in Hepatology, such as new insights in portal hypertension, ACLF, and a special session about the impact of SARS-COV-2 on pre-existing liver disease on friday afternoon. We are sure you will find these topics most interesting for your own daily practice. You can find the preliminary program on our BASL website.

This year there are also ELECTIONS FOR BASL STEERING COMMITTEE. Applications (+ CV and picture) can be sent to the current president anja.geerts@ugent.be until the 1st october. Thereafter we will organize an electronic voting to which all members will be invited.

We would in addition invite you to submit clinical cases for the case presentation as well as applications for the research grant and BASL GILEAD grants (more information will be available soon on our website).

All of these items are awarded. DEADLINE OF APPLICATION is the 1st of october 2020 via the BASL secretary sergio.negrindastis@gmail.com.

The meeting venue will change this year, and we are pleased to welcome you at the « Wallonia Conference Center Mons ». You can find all informations on the website <https://www.wccm.eu/fr>.

Hoping to see you all soon,

Best regards,

On behalf of the BASL Steering Committee,

President BASL

Anja Geerts

Secretary BASL

Sergio Negrín Dastis
